Event Photos

From Your DIO Tsveti Markova, MD, FAAFP

As I know all of you involved in GME are concerned with funding of residency programs, I encourage you to read the Institute of Medicine (IOM) 2014 Report on Governance and Financing of GME, entitled: *Graduate Medical Education That Meets the Nation's Health Needs*. In it, the IOM panel states that, "there is striking absence of transparency and accountability in its financial system for producing the types of physicians that the nation needs." The 21-member IOM committee recommends significant changes to GME financing and governance to address current deficiencies and better shape for the physician workforce of the future, while encouraging innovation in the structures, locations and design of GME programs.

Specifically, the report makes several recommendations:

1. Maintain aggregate GME support at the current level but move toward performance-based payments, ensure accountability, incentivize innovation in content and financing, and phase out the current Medicare payment system.
2. Build a GME infrastructure that includes an HHS GME Policy Council which would develop policy for geographic distribution and specialty configuration of the physician workforce, and create a CMS GME center to manage funding and data collection under the guidance of the policy council.
3. Create one GME Medicare fund with two subsidiary funds for operations and innovation.

ACGME Update

ACGME NAS

As of July 1st, all of the WSU School of Medicine ACGME accredited programs are now participating in the ACGME Next Accreditation System. This is an exciting time as each program implements the new requirements and starts using the milestone assessments in their evaluation process. The GME office will be working closely with the programs to ensure their success in transitioning to this new system.

Self-Study Visits

The ACGME has a webinar that gives more information about the new Self-Study Process. You can access the presentation on the ACGME website by clicking this link: [ACGME Webinars](#)

ACGME ADS Updates

ADS updates are currently in progress. The chart below highlights each program's ADS notification date as well as the date the updates are due.

Program Name	Annual Update Begins	Annual Update Due
Dermatology	9/8/2014	10/9/2014
Family Medicine	9/8/2014	10/9/2014
Internal Medicine	8/4/2014	9/4/2014
Ophthalmic Plastic and Reconstructive Surgery	9/29/2014	10/30/2014
Orthopaedic Surgery	8/4/2014	9/4/2014
Otolaryngology	9/8/2014	10/9/2014
Physical Medicine & Rehabilitation	8/4/2014	9/4/2014
Urology	9/8/2014	10/9/2014
Transitional Year	9/8/2014	10/9/2014

Admin Updates

Upcoming Important Dates:

- [August 12](#) - Program Coordinators Development Meeting
- [August 13](#) - GMEC SCI (Subcommittee for Compliance and Improvement)
- [August 15](#) - Task Force Quality Improvement and Safety Committee Meeting
- [9/15-19/2014](#) - WSU's 2nd Annual PAW (Postdoc Appreciation Week)
- [September 19](#) - SEMCME Residency Coordinator Workshop @ Grosse Pte War Memorial
- [September 23](#) - GMEC Meeting

Looking Ahead:

- [October 22-24](#) - NI Fall Conference

PC Development:

During the 2014-2015 academic year the focus will be on helping the program coordinators with the ACGME NAS – assisting them with the new requirements that became effective July 1st.

New Innovations:

New Innovations has been evolving with the adoption of the ACGME NAS. They have developed new areas of the software to assist the residency programs to make it easier to implement the changes needed. There are webinars available in New Innovations to help with learning the new areas – especially dealing with the implementation of the milestone reviews. One of the new areas in the software we will start to use is the use of policy tracking – when a revised residency policy is uploaded in New Innovations an alert will be sent to the residents so they will be able review the revisions and keep up to date on any changes made that would affect their residency.

Congratulations:

Special accolades to **Lauren Florkey** for a job well done for the incoming 2014 residency orientation and onboarding.

Congratulations to **Martha Jordan** for receiving certification from the National Board for Certification of Training Administrators of Graduate Medical Education (**TAGME**). She completed two separate and distinctly different parts of the TAGME certification process, the work effort assessment tool (WET) and the monitored assessment tool (MAT). The WET is designed to assess knowledge of the GME Administrative requirements and how the sponsoring institution functions as well as the ability to find and access information relative to GME. The MAT is designed to assess knowledge of the ACGME requirements for successful maintenance of accreditation for a sponsoring institution.

OSCE & OSHE Update

Who will be *Best Resident in a Supporting Role*? What will the gowns look like? GME is excited to announce the third year of institutional participation in the Objective Structured Clinical Examinations (OSCE)! This year, we have packed up our Objective Structured Handoff Evaluation (OSHE) and shipped it to the Kado Simulation Center for ease of participation as well. OSCE and OSHE are valuable tools used to directly observe residents demonstrating competencies such as Interpersonal and

Communication Skills (IPC), Systems-based Practice (SBP), Professionalism (P), and Patient Care (C). OSCE and OSHE produce a wealth of assessment in the form of self-evaluation, evaluation from the standardized patient, and faculty evaluation. Every program has hosted a preparatory didactic session and is scheduled to send their residents and a faculty champion late July and early August. Thank you to all programs for helping us make this possible.

APE Update

You don't have to go to the movies to see Planet of the APes! Just come to GME! Our residency programs will be submitting their formal, annual evaluation using our newly developed template to summarize resident performance, faculty development, graduate performance, and program quality, along with their Action Plans for Improvement. In early August, programs will evaluate what program submitted, and GME created a form to guide them through this process to ensure that all programs receive high quality feedback.

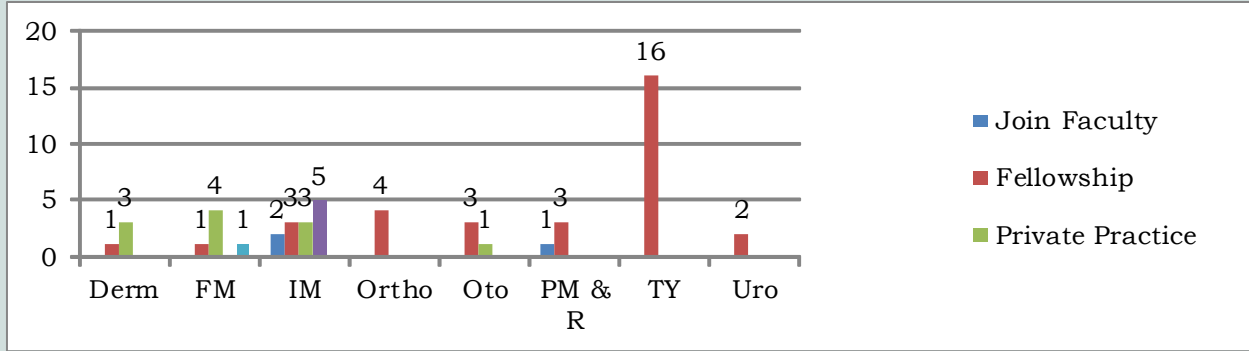

Resident Future Plans

School of Medicine

2013-2014 Future Plans Graduating Residents (N = 53)				
Join Faculty	Fellowship	Private Practice	Hospitalist	Professionals Shortage Area
3 (5%)	33 (62%)	13 (25%)	3 (6%)	1 (2%)
		Graduates Remaining in Michigan		
		15 (28%)		

Resident Accolades

WSU Otolaryngology Department: Two Award Winners!

Vivek-Sagar Patel, MD (PGY 4 resident) received an American Academy Facial Plastic & Reconstructive Surgery Leslie Bernstein Resident Research CORE Grant award in the amount of \$5,000. The grant is titled, *“A Cadaveric Analysis of the Biomechanics of the Orbital Floor Fracture.”* the grant is for a one-year time period.

Priyanka Shah-O’Brien, MD (PGY 3 resident) received an American Head and Neck Society CORE Grant award for \$10,000. The title of the grant is *“Role of Disulfiram on oxidative stress and OSCC xenograft burden”*. The grant is for a one-year time period.

Welcome New Staff

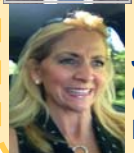

Dr. Yongmin Liu to our WSUPG faculty as of July 1, 2014! Assistant Professor, Dept. Physical Medicine & Rehabilitation—Oakwood Hospital— WSU School of Medicine. American Board Certified in PM&R, Electrodiagnostic Medicine and Pain Medicine.

Dr. Aashish A. Deshpande - Assistant Professor, became the Associate Program Director, Dept. of Physical Medicine & Rehabilitation—Oakwood - WSU School of Medicine. American Board Certified.

P. Tyler Roskos, PhD, ABPP—Dept. of Physical Medicine & Rehabilitation—Oakwood Hospital—WSU School of Medicine. Clinical psychologist/neuropsychologist, specializing in neuropsychology assessment and rehabilitation psychology.

Jamie A. Saules is an Executive Assistant temp that came on board to assist Dr. Markova and the WSU GME team just prior to the new academic year. She has an extensive background working within DMC as an Executive Assistant and as a PC in pediatric dentistry.

2014 New Residents

As they are already well adjusted and integrated members of their residencies, we wanted to welcome once again the new residents! They have completed Orientation successfully and it was well received overall. In the time you will be with us, we look forward to educating you as well as learning from you. We hope we can inspire you. The GME office is happy to be a part of your educational journey. Enjoy this complete list of where our new residents attended medical school:

Dermatology:

Nancy Parquet, MD – University of Toledo College of Medicine
Geoffrey Potts, MD – Wayne State University School of Medicine
Lindsay Sklar, MD – Wayne State University School of Medicine
Michelle Walby, MD—Wayne State University School of Medicine
Nasreen Ghuznavi, New York Medical College

Family Medicine:

Amin Farokhrani MD – Wayne State University School of Medicine
Rebecca Heeney, MD – St. George's University School of Medicine
Andrea Milne, MD – Saba University School of Medicine
Olayinka Warritay, MD – St. George's University School of Medicine
Alexander Yang, MD – Ross University School of Medicine
Pauline Zhang, MD – Wayne State University School of Medicine

Internal Medicine:

Alexander Adams, MD – Saba University School of Medicine
Mhd Hussam Al Jandali, MD – Kalamoon University Faculty of Med
Salwan Al Mutar, MD – University of Al-Mustansiriyah College of Medicine
Reem Al-Mahdawi, MD – University of Baghdad College of Medicine
Tiba Alwardi, MD – Jordan University of Science & Tech. Fac. Med.
Sarah Asghar, MD – Sindh Medical University
Arham Barakzai, MD – University of Bristol Medical School
Adam Hull, DO – Philadelphia College of Osteopathic Medicine
Shahniwaz Labana, MD – American University of Antigua College of Medicine
Maliha Naseer, MD – Fatima Jinnah Medical College for Women
Christopher Renkiewicz, MD – St. George's University School of Med.
Hussam Sabbagh, MD – Kalamoon University Faculty of Medicine
Ahmed Saleh, MD – University of Jordan Faculty of Medicine

Orthopaedic Surgery:

Daniel Briggs, MD – University of Buffalo, State University of NY
David Buzas, MD – Wayne State University School of Medicine
Rajin Shahriar, MD – Texas A & M University System Health Science Ctr.
College of Medicine

Otolaryngology:

Michael Blasco, MD – University of Illinois
Sean Mutchnick, MD – Wayne State University School of Medicine
Hani Rayess, MD – Case Western Reserve School of Medicine
Johnathan Waxman, MD – University of Illinois College of Medicine

Physical Medicine & Rehabilitation:

Braden Boji, MD – Wayne State University School of Medicine
Adil Hussain, DO – At Still UN of Hlth Sc's Col. Of Osteo Med. Mesa
Arun Idiculla, MD – University of Kansas School of Medicine
Paul Yoo, DO – Nova Southeastern University College of Osteopathic Med

Transitional Year:

Albert Antonyan, MD – Wayne State University School of Medicine
Sepehr Bahadorani, MD – Wayne State University School of Medicine
Brandon Decaluwe, MD – Wayne State University School of Medicine
Alicia Eby, MD – Wayne State University School of Medicine
Brenton Goodman, MD – Indiana University School of Medicine
Adam Kahn, MD – Rosalind Franklin Univ of Med & Science/Chicago Medical School
Michael Kenderes, MD – State Univ of NY Upstate Medical University
Cynthia Nicholson, MD – Wayne State University School of Medicine
Joon Lee, MD – University of Illinois College of Medicine
Nishkruti Munshi, MD – American University of the Caribbean School of Medicine
Oluloniyan Peters, MD – Ease Virginia Medical School
Paola Pesantes, MD – Rosalind Franklin University of Medicine & Science/Chicago Medical School
Lesli Tristan, MD – University of Texas Medical Branch at Galveston
Samuel Son, MD – St. George's University School of Medicine
Farheen Sultana, MD – Indiana University School of Medicine
Anita Yarlagadda, MD – Texas Tech Un Hsc, School of Med (amar/lub/El Paso)

Urology:

Priyanka Arshanapalli, MD – Indiana University School of Medicine
Kahlil Saad, MD – University of Kansas School of Medicine

"Fresh out of the box: the white coats and our new PM& R residents on their first day from left to right: **Paul Yoo, DO, Braden Boji, MD, Adil Hussain, DO and Arun Idiculla, MD.**"

EVENT PHOTOS

Residents enjoy their welcome dinner at Traffic Jam & Snug, Detroit 6/24/14

At residency orientation: "Competency Pyramid," modeled after the game show, one resident tries to identify core competencies used to measure resident training.

EXCELLENCE! GME partners with WSU benefits to enroll new residents! (from Lt. to Rt.) Lauren Florkey, GME; Jamie Saules, GME & Ursula Hart, Benefits.

Wayne State's School of Medicine welcomes 51 new residents to its Graduate Medical Education program on June 24, 2014 held in Margherio Family Conference Center in Detroit. "Resident orientation is to assist everyone in becoming familiar with the system and to gain the basic knowledge about GME, including the evaluation system, accreditation, emphasis of patient quality improvement and safety and more", states Dr. Tsveti Markova, Associate Dean for Graduate Medical Education. The day long orientation is filled with a variety of hospital learning modules, along with some mixers such as, the "\$10 Competency Pyramid" game, a resource knowledge bazaar with vendors, and a welcome dinner at the end of the day as pictured above.

....Continued Pg. 1...from the DIO ~ Dr. T. Markova

4. Recruit funds directly to GME-sponsoring organizations while implementing performance-based payments using information gleaned from innovation fund pilot programs.
5. Medicaid funding for GME should remain at the individual state's discretion, but with improved transparency and accountability similar to Medicare-funding reforms.

These recommendations would require legislative action, the report notes, and the committee urged Congress to amend Medicare law to initiate a transition to a performance-based system of Medicare GME funding.

You can read the entire report at: <http://iom.edu/Reports/2014/Graduate-Medical-Education-That-Meets-the-Nations-Health-Needs.aspx>

DETROIT LIONS PRACTICE at "TOM ADAMS FIELD" - WSU CAMPUS!

"Lions in the D" 7/30/14—Pictured Lt to Rt: **Mark Diamond, MD PGY2; Parmod Mukhi, MD & Aashish Deshpande, MD.** Kudos to all our faculty members and residents who do sideline management for our WSU athletes! **GO Warriors!**
